

# SS25 Collection Lookbook

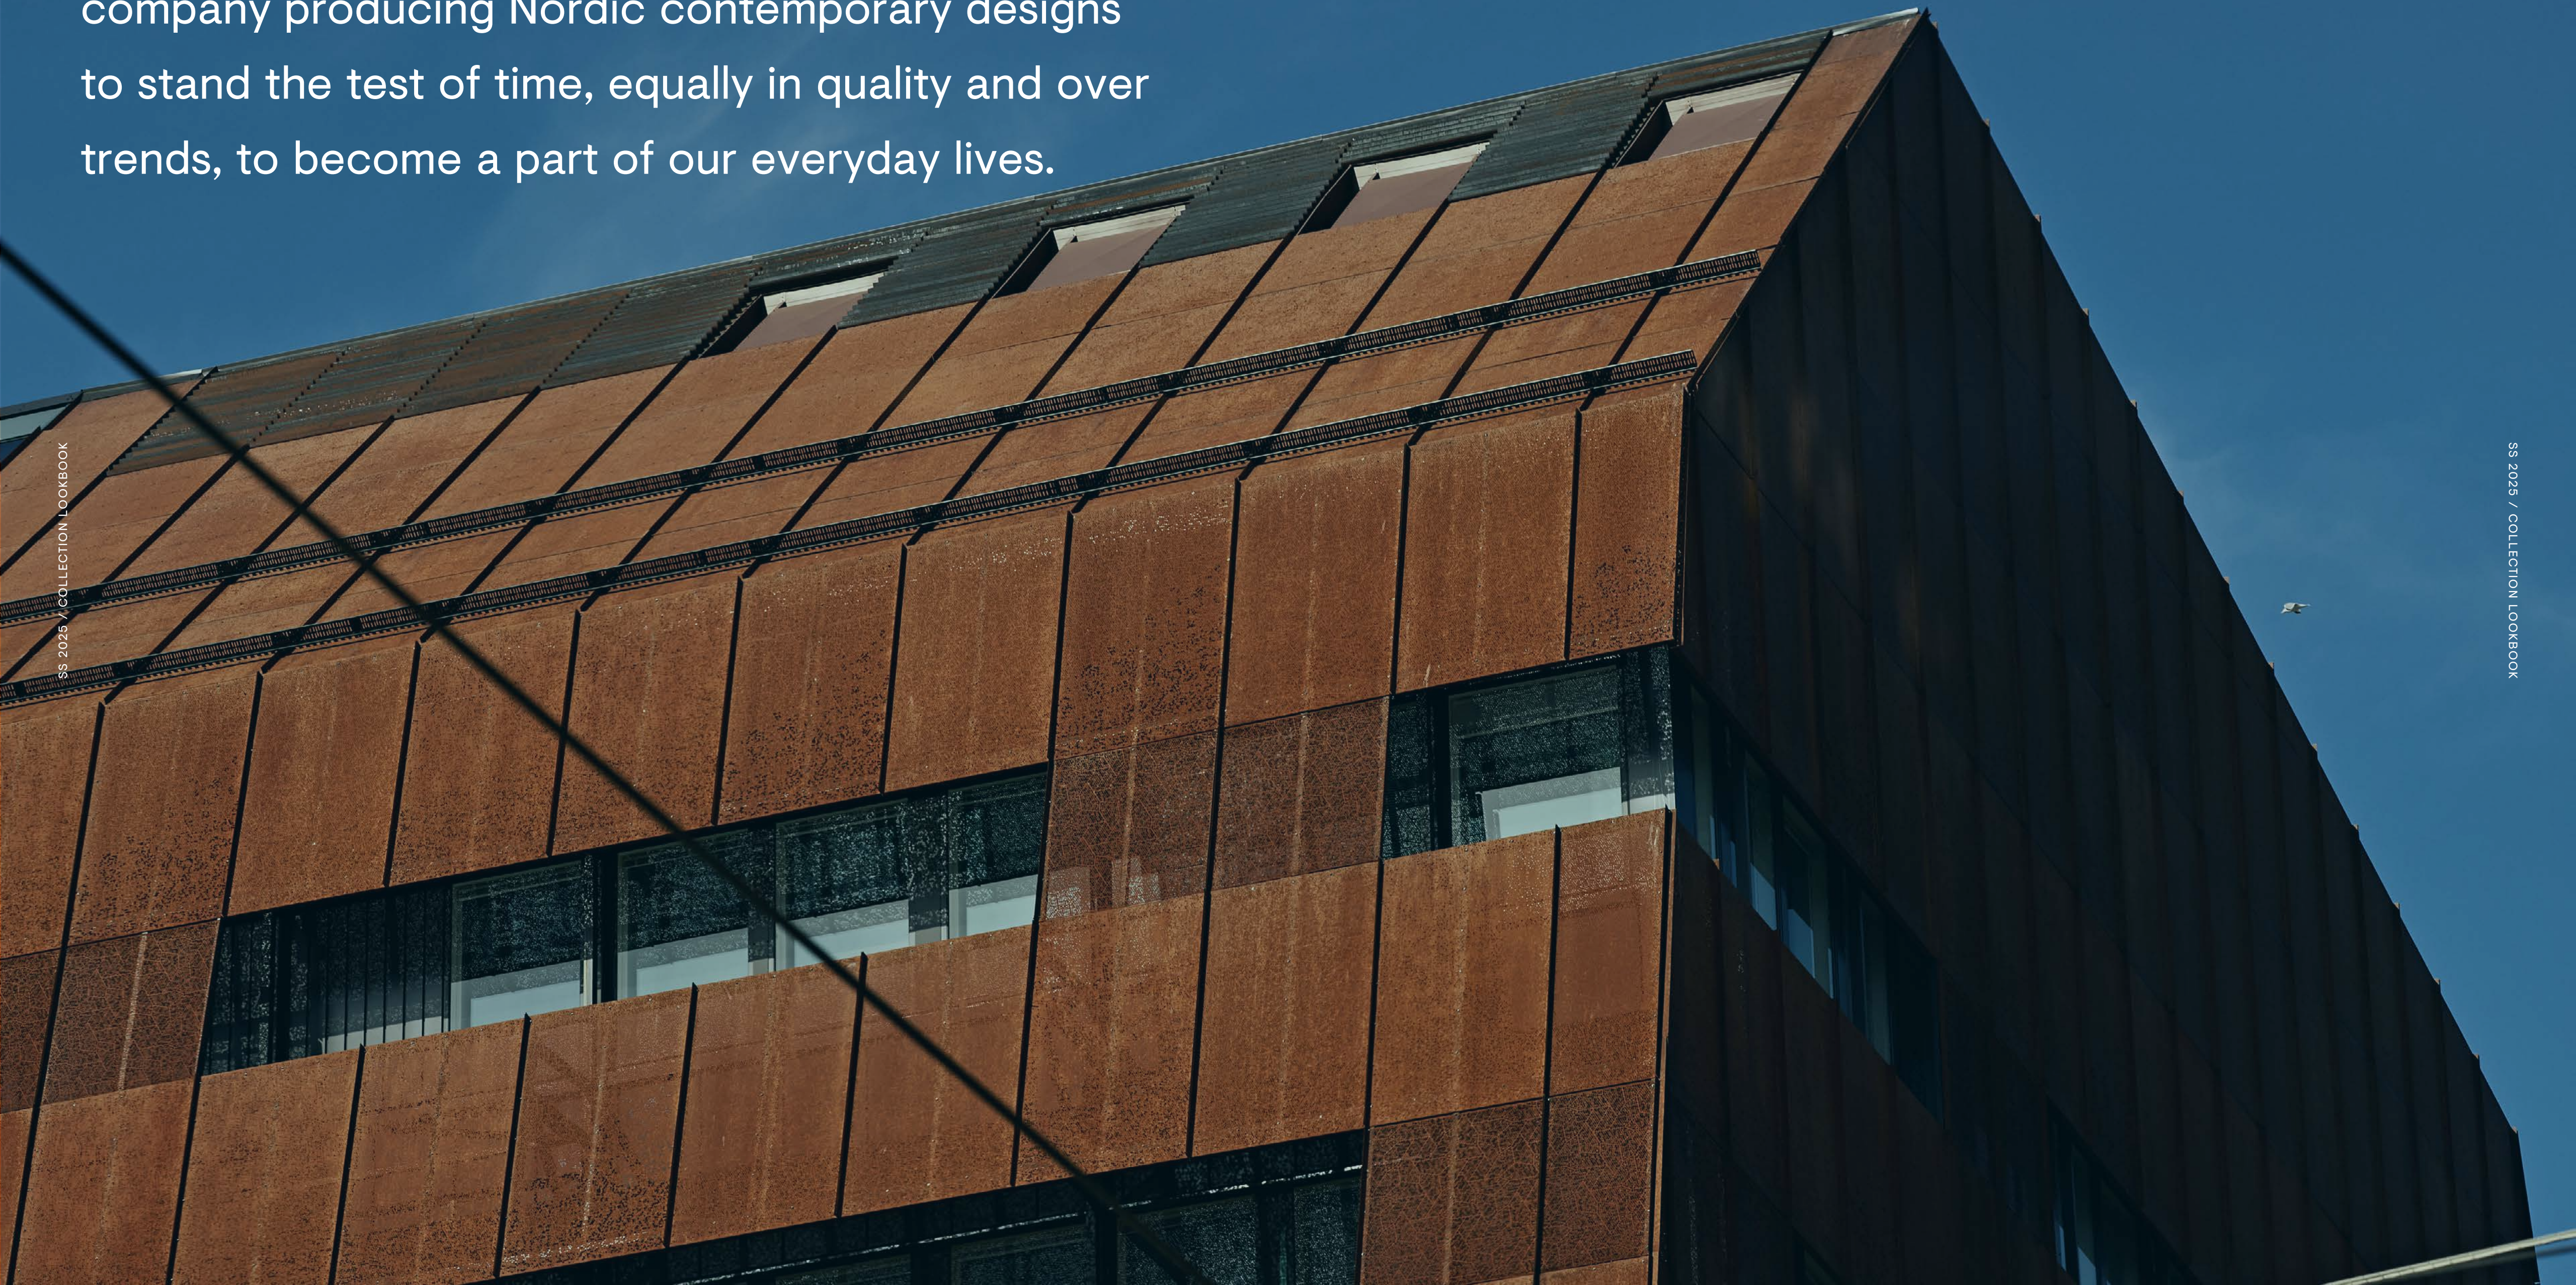

Most of the year, we dress to endure the elements. But in spring and summer, we can, for a brief moment, let go of that. The SS25 Collection encapsulates that feeling of joyous relief: the line-up combines our streetwear sensibilities with preppy influences and bright moments of color.

And yet, there's still an aspect of functionality involved. Because you never know when the Nordic summer decides to take an unexpected turn.

Founded in 2001, Makia is a Helsinki based clothing company producing Nordic contemporary designs to stand the test of time, equally in quality and over trends, to become a part of our everyday lives.

We have stood long enough in cold rain, to favour simple and functional designs that focus on materials respecting the harsh northern climate. Makia was born in the harbour of Helsinki out of these principles – to stand the test of time and to accompany you for years to come - Through the Rough Seas.

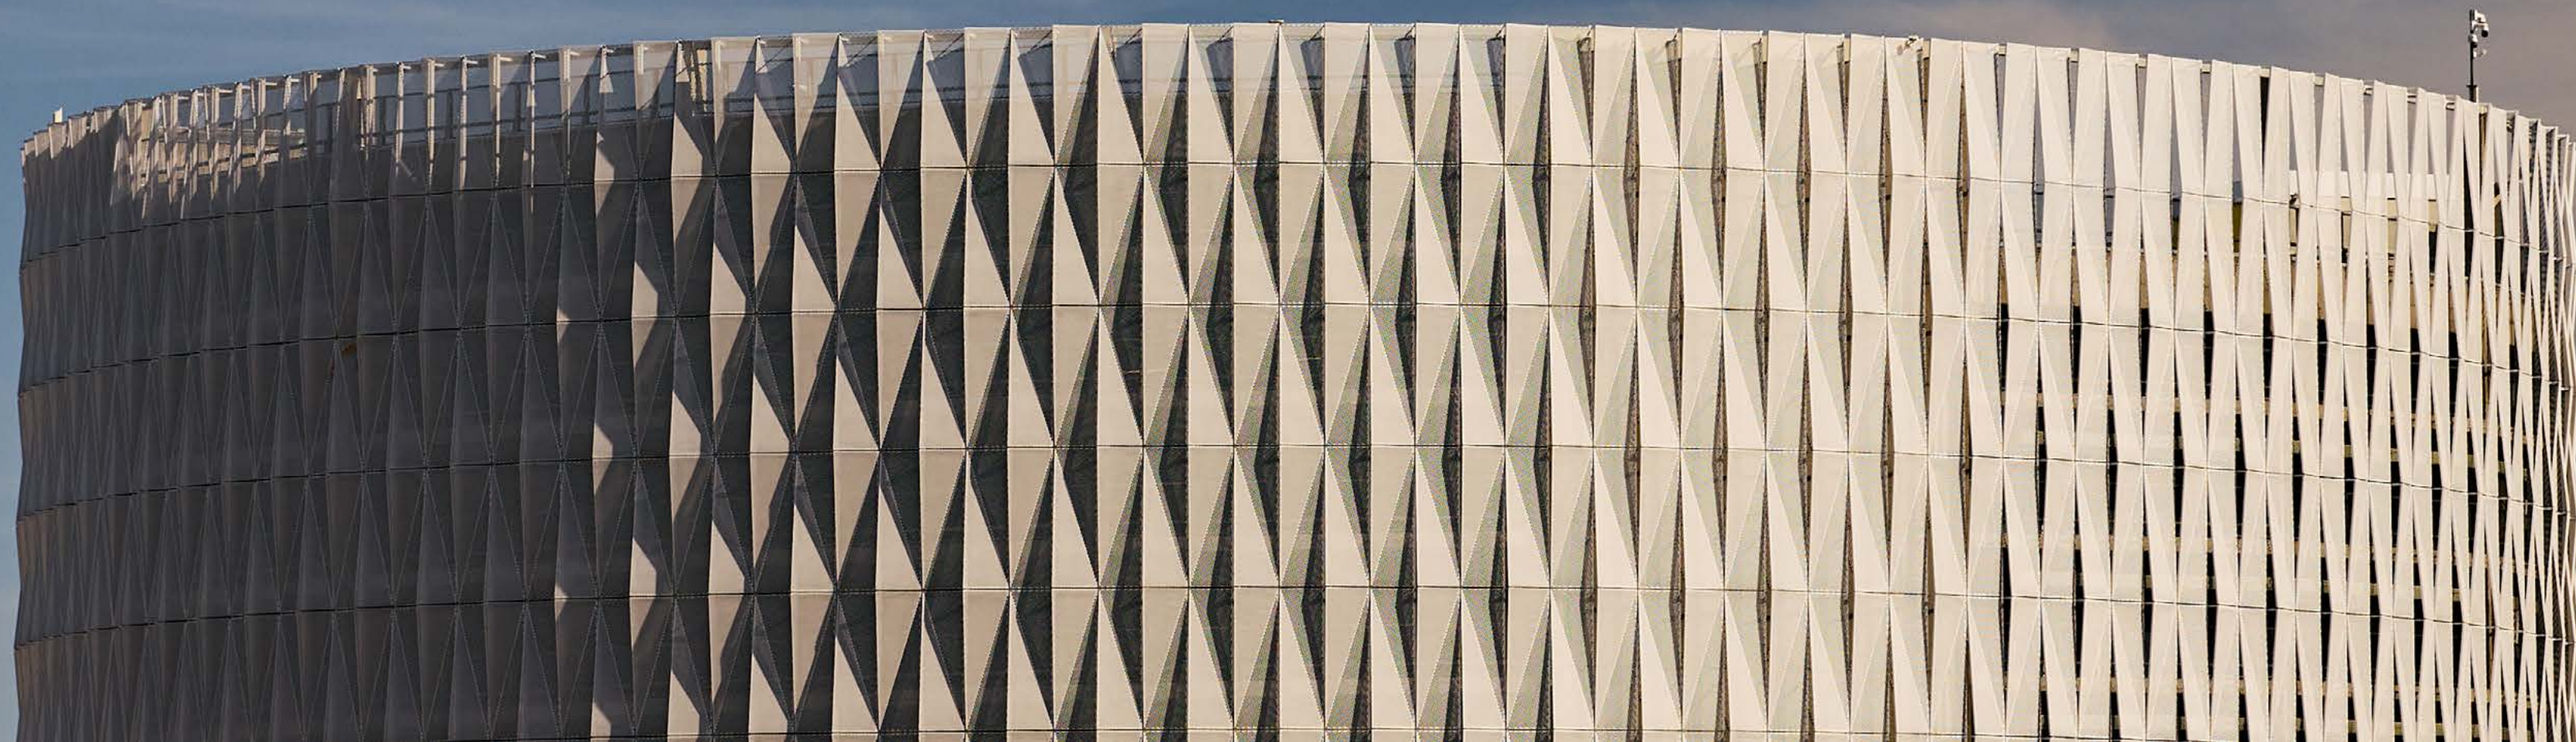

Straightforward designs and quality for years to come. The initial idea of Makia was to bring easily approachable quality clothes to its customers, at reasonable prices. To this day, we thrive to make our designs as usable and functional as possible, no-nonsense clothing that you won't want to throw away.
